

neo

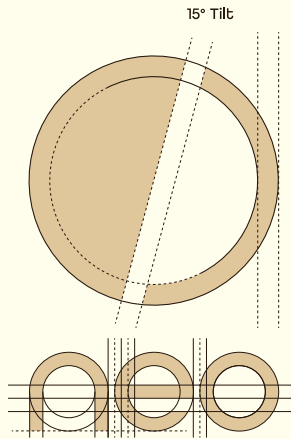

existing in liminal

neo is not defined by a single concept.

we exist in the in-between, a liminal space where creativity flows, ideas evolve, and presence is felt – not fixed.

designed as an ever-evolving vessel, neo is a space for free expression, relaxation, and experimentation.

neo is where you create your own meaning – again and again.

## the liminal wheel

the liminal wheel represents continuity and fluidity — a shape without beginning or end, embodying neo's identity as something always in motion, like time itself — constantly moving forward.

the half-filled wheel captures the balance between presence and absence. solid and hollow — a visual metaphor for shifting focus, the letting go of one idea to explore the next.

the 15° tilt echoes the symbolic meaning of the number 15 — often tied to transformation, growth, and new beginnings. it reflects neo's evolving nature: a space shaped by quiet transitions, where change is constant and each shift marks the unfolding of something new.

green goddess gin, kaffir lime brine,  
extra dry vermouth & pickled onion

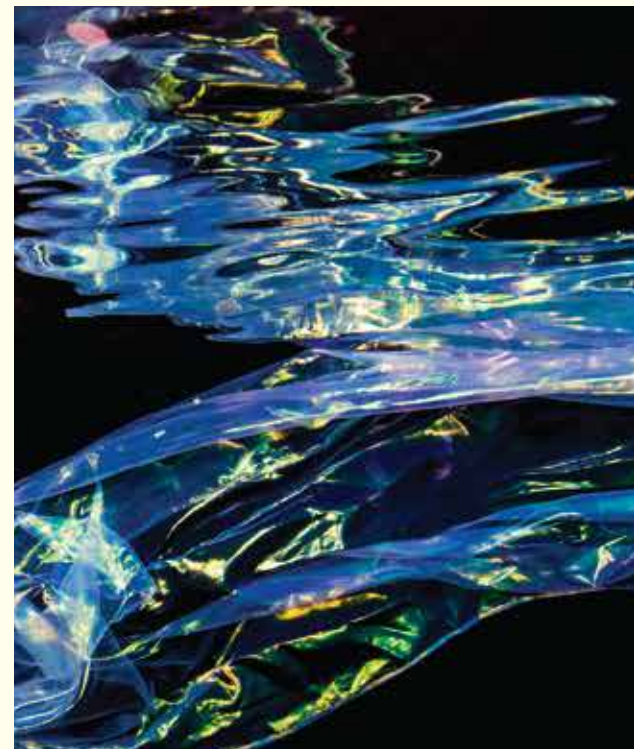

savory, vegetal, aromatic

*it starts like virtue: soft, serene — a sip of green, the breath between.  
but brine bites back, and gin intrudes, what once was calm begins to brood.*

*it looks like health, it tastes like sin, a salad spiked with what's within.  
the second mirror doesn't lie — it shows the self you try to deny.*
