

existing in liminal

neo is not defined by a single concept.

we exist in the in-between, a liminal space where creativity flows, ideas evolve, and presence is felt – not fixed.

designed as an ever-evolving vessel, neo is a space for free expression, relaxation, and experimentation.

neo is where you create your own meaning – again and again.

the liminal wheel

the liminal wheel represents continuity and fluidity – a shape without beginning or end, embodying neo's identity as something always in motion, like time itself – constantly moving forward.

the half-filled wheel captures the balance between presence and absence. solid and hollow – a visual metaphor for shifting focus, the letting go of one idea to explore the next.

the 15° tilt echoes the symbolic meaning of the number 15 – often tied to transformation, growth, and new beginnings. it reflects neo's evolving nature: a space shaped by quiet transitions, where change is constant and each shift marks the unfolding of something new.

easy hour

at neo, we like to take our time – especially when it comes to good drinks. easy hour is our take on happy hour, where the pace softens and the pours keep coming.

it's a window to unwind, catch up, and settle into the night – no rush, just good company and better sips.

sip-cycle menu

at neo, even what lingers has a second life. the **sip-cycle menu** transforms the remnants of our signature menu into new stories in a glass.

it's one of our small steps toward sustainability, turning what could have been discarded into something unexpected, playful, and full of flavour.
